# W.J. Henderson Recreation Centre Renewal Project!

Design work for the W.J. Henderson Recreation Centre Renewal project is well underway, and construction is on track. The building remains closed throughout the summer season, however the library will remain open during this time. The Arena and lobby will re-open to the public by September 2024. Full completion of construction is projected by January 2026.

## *The scope of work for the project involves the following:*

- The construction of a new aquatic facility comprising of an 8-lane, 25 metre pool as well as a separate warm-water leisure pool;
- Undertaking accessibility upgrades throughout the existing facility, including the addition of a lift, accessible change rooms, and barrier-free viewing areas;
- Installing new aquatic change rooms, including creation of a family change room;
- Incorporating new Indigenous Legacy Space;
- Incorporating energy conservation measures throughout the facility to reduce greenhouse gas emissions associated with its operations;
- Designing the building to be Net-Zero ready, meaning that the amount of energy needed to operate the building in a given year can be produced directly on site in the future, typically through the use of solar panels;
- Keeping the building operational during construction and minimizing facility and programming downtime.
